Forecast For East of England
Issued by Met Office Exeter
at 0400 on Sunday 24 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Frosty start. Rain, sleet and snow from west later.

Today:
Frosty start with fog patches slowly clearing, bright elsewhere with sunny spells. Turning cloudy from late morning with outbreaks of rain, sleet and snow pushing north across the region, with significant accumulations possible over higher ground. Cold throughout. Maximum temperature 4 deg C (39 deg F).

Tonight:
Cloudy at first with any rain, sleet or snow clearing the south of the region. Staying cold and becoming dry and clear leading to fog patches and a widespread frost. Minimum temperature -3 deg C (27 deg F).

Monday:
A cold day with bright or sunny spells and isolated wintry showers toward East Anglia. Drier conditions developing across all parts later, becoming breezy along the east coast. Frosty overnight. Maximum temperature 4 deg C (39 deg F).

Outlook for Tuesday to Thursday:
Cold and frosty start Tuesday with fog slow to clear, rain pushing into west later. Occasionally heavy rain and milder temperatures sweeping eastwards through Wednesday, Wet, windy but milder Thursday.
